

## Biography

Cristina was born in El Puerto de Santa Maria, on the 22nd February 1994 in a catholic family, as her parents belonged to the community "los siervos de Jesús" (the servers of Jesus).

Since she was young she offered everything for the good of creation, and especially for those who suffer. She grew up being a sensitive and loving child. She suffered bullying at school which caused her great damage. Cristina loved Art immensely (music, painting, photography, writing...).

In her heart, she burned with desire to live and search for good. She carried out her apostleship within her family, wherever she went, and through social networks. She had the same dreams as any young person with a clean heart. She was studying a degree in publicity and the last eight months of her life she fought against jaw cancer, embracing her suffering for the salvation of the world, for those she loved and even for those who harmed her.

She arrived at the father's house at the age of 24, on the 26th June 2018.

## PRAYER

Lord, we give you thanks for Cristina, who searched for the truth and found it in you, accepting and appreciating your will to the extreme.

She invites us to do everyday what we can, the best we can, like the hummingbird, pouring drops of tenderness over us. With her closeness, her smile and her gaze, she reminds us that purity is possible.

Feeling herself like a deer of the Psalms she satisfied her thirst with the living water of grace and like a lighthouse she passes on to us the divine light and she guides us to live love for families, friendship and true love.

By offering her suffering, for those who suffer most, for the care of your creation and for those who walk misguided to change their ways, she did not stop her continuous effort to do good.

Together with the Virgin Maria we ask, through the intercession of Cristina, that you grant us this grace we present to you (intention).

*Our Father, Hail Mary, Glory be.*
